<b>Policy/Initiative Data</b>	
Title of Initiative	<b>Creation of an app gathering the results of the national questionnaires "apprentices' life barometer" (BVA) and "companies' life barometer" (BVE)</b>
Partnership details	Promoter: CCCA-BTP
Project Duration	01.01.2018 to 31.12.2019
Total Budget	€25,000.00
Description	BVA and BVE national questionnaires are released every two years within the network of the CCCA-BTP. Its aim is to determine the needs of construction apprentices and companies and their feelings about the trainings offered within the VTCs. So that the VTCs can access to the data collected through these questionnaires, an online app was created. It presents the results of the BVA and BVE, but also national and local information about the construction training market.
Phases	BVA: the link to access to the BVA questionnaire is sent to VTCs which organise fulfillment sessions by apprentices. BVE: the CCCA-BTP picks up the lists of training companies from VTCs and sends email to each one of them to get answers to the questionnaire

Project Details	
<b>Aim</b>	Improve the training offer to construction companies which train apprentices and get a better understanding of them
<b>Target groups</b>	Apprentices and companies training them
<b>Exchange of Experiences</b>	
<b>Outcomes 1</b>	Adapt training offer to construction companies' needs
<b>Outcomes 2</b>	Allow construction companies and apprentices to express their expectations
<b>Outcomes 3</b>	Communicate the data collected through BVA and BVE to VTCs
Recommendations	
<b>Skill gaps</b>	n/a
<b>Mis-matching of skills</b>	The collect and communication of the data from the BVA and BE allow VTCs to adapt their training offer according to construction companies' needs, fulfilling the mis-matches between the knowledge and skills learned by the apprentices in the VTCs and those expected by construction companies.
<b>Skills-Shortages</b>	n/a
<b>Training/Skills</b>	Apprentices get more adapted trainings, and gain skills needed by construction companies.
<b>Career moves</b>	n/a
<b>Mobility</b>	n/a
<b>Other EQF-Level</b>	n/a
<b>Transfer in Europe</b>	This app aims to spread the knowledge gathered through the questionnaires.
<b>Entrepreneurship Opportunities</b>	n/a
<b>Other</b>	Outreach - This device allows VTCs to see the data concerning the local construction market as well as the local training offer in order to adapt their own training courses to match construction companies' local and national skills needs.
