<b>Website</b>	www.sataedu.fi
<b>Contact Person</b>	
<b>Contact Name</b>	Seppo Kivelä
<b>Telephone</b>	00358 40 1994100 ; 00358 40 199 4453
<b>E-Mail</b>	seppo.kivela@sataedu.fi
<b>Policy/Initiative Data</b>	
<b>Title of Initiative</b>	<b>Reuse of building material</b>
<b>Partnership details</b>	Sataedu
<b>Project Duration</b>	12.11.2019 to 13.05.2020
<b>Total Budget</b>	
<b>Description</b>	Reuse of building materials in VET studies and in training construction sites
<b>Phases</b>	n/a

Project Details	
<b>Aim</b>	To show the importance of the circular economy to the student
<b>Target groups</b>	Students of VET schooling
<b>Exchange of Experiences</b>	How a construction teacher can demonstrate the importance of sustainable development? How practical proximity supports learning a new thing? What local examples teachers use?
<b>Outcomes 1</b>	Basic information on building materials recycling
<b>Outcomes 2</b>	Local conditions in recycling
<b>Outcomes 3</b>	Principles of sustainable development
Policy/Initiative	
<b>Skill gaps</b>	Recycling of building materials
<b>Mis-matching of skills</b>	Understanding the properties of materials as part of construction expertise
<b>Skills-Shortages</b>	Understanding the principles of sustainable development
<b>Training</b>	Reuse of building material as a part of basic VET studies
<b>Career moves</b>	Provides basic information for the application of new knowledge
<b>Mobility</b>	The necessary information can be easily carried along the construction sites.
<b>Other EQF-Level</b>	n/a
<b>Transfer in Europe</b>	The practice can be compared to local similar practices, exemplary available anywhere
<b>Entrepreneurship Opportunities</b>	New different skills offer an opportunity for entrepreneurship as part of construction. Interest in sustainable development has been seen especially among women students.
